

# PhD Opportunities

## International PhD fellowships based at Oxford University Clinical Research Unit

Every year Oxford University Clinical Research Unit (OUCRU) offers opportunities for talented Vietnamese scientists and clinicians to enroll in a 4-year PhD training programme based at either OUCRU-HCMC or OUCRU-Hanoi and registered with UK universities. We also provide an opportunity for Indonesian nationals/citizens to undergo a PhD project at the Eijkman Oxford University Clinical Research Unit (EOUCRU) in Jakarta. Our PhD projects focus on infectious diseases relevant to the work of the Health Services HCMC, Hospital for Tropical Diseases (HCMC), National Hospital for Tropical Diseases (Hanoi) and OUCRU.

### Areas of research include:

- Clinical research
- Public Health
- Epidemiology
- Microbiology, Virology and Parasitology
- Immunology
- Genetics
- Public Engagement & Social Science
- Medical Statistics and Bioinformatics
- Mathematical Modelling & Health Economy

### Eligibility criteria:

- IETLS 7
- BSc, MSc or MD

### Fellowship includes:

- Supervision and training
- UK university fees
- Support for periods of overseas training
- Salary
